

## Benefits of home health care

- Being at home is important and tends to improve the healing process.
- Home health care is often more economical.
- With recent changes in health coverage this may be the only option

## WHO QUALIFIES?

- Clients/patients who are homebound and under the care of a Licensed Physician, who's home health needs are more than the client/Patient and or family members to handle.
- Clients/Patients returning from the hospital that require recuperative services not warranting hospital stay.
- Clients/Patients who are not sure they can handle the medical regiment on their own without support.

## CRITERIA FOR ADMISSION

- The Client/patient must be homebound and under the care of a Licensed Physician.
- Services must be deemed necessary and reasonable according to Medicare, Medicaid and Insurance Standards, unless paid for out of pocket.
- The Client/patient must live within the geographical area served by our agency.
- The services for the client/patient must be under a plan of care established and periodically reviewed by Licensed Medical Doctor.
- Client/Patient must be a willing participant in the implementation of the plan of care.
